

Ethics Review

Wednesday 11 September 2013

Project Title: Artisan software development for implementation of text visualization tools in

real scenarios (practice research PhD) Leader: Jaume Nualart Vilaplana

Start Date, End Date: Oct 2013 – Nov 2015

The above project was reviewed by Dr Phil Robertson, COO. The project risk is deemed negligible. *Negligible* risk is defined as no foreseeable risk of harm or discomfort, where any risk is no more than inconvenience. In this case, no further action is required.
